NOS LAUNCHES RANGE OF RECONDITIONED DEVICES WITH A TWO YEAR GUARANTEE

- **First operator in Portugal to offer reconditioned Apple smartphones with a two year guarantee.**
- **Top of the range devices can be acquired “as new” at highly competitive prices.**
- **NOS strengthens its commitment to provide products and services that encourage more environmentally conscious choices.**

NOS is launching a new range on the market – **NOS Guaranteed** – allowing customers to buy reconditioned smartphones with a two year guarantee at highly competitive prices and with an option to buy them in installments. The devices are put through a very thorough process that certifies the quality and state of repair of the smartphones.

Part of an approach to the circular economy, the NOS Guaranteed devices are a more sustainable option, encouraging a reduction in electronic pollution and encouraging reuse. The available reconditioned smartphones show minimal signs of use, are as new, and have been subjected to a thorough technical inspection.

At the time of launch of the scheme, devices on offer include Apple smartphones. Models available are: 32GB iPhone 7 (€229.99), 64GB iPhone 8 (€334.99), 64GB iPhone XS Max (€499.99), and the 64GB iPhone XR (€649.99). All devices are sold with charger and headphones.

The operator thus strengthens its portfolio of devices with the goal of providing the best solutions that meet the needs of all of its customers.
